DETAILED ACTION

Election/Restrictions

1. This application contains claims directed to the following patentably distinct species of the claimed invention:

Species I - shown in Figures 1-4, 12, 15-16, 19-20;

Species II - shown in Figures 5 and 13;

Species III - shown in Figures 6 and 14;

Species IV - shown in Figure 7;

Species V - shown in Figure 8;

Species VI - shown in Figure 9;

Species VII - shown in Figure 10;

Species VIII - shown in Figure 11;

Species IX - shown in Figure 17;

Species X - shown in Figure 18;

Species XI - shown in Figures 21-22;

Species XII - shown in Figures 23-24;

Species XIII - shown in Figures 25-26;

Species XIV- shown in Figure 27;

Species XV - shown in Figures 28-29;

Species XVI - shown in Figures 30-31;

Species XVII - shown in Figures 32-33; and

Species XVIII - shown in Figure 34.

Applicant is required under 35 U.S.C. 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable. Currently, claim 1 is generic.

Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the limitations of an allowed generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.

Art Unit: 3617

2. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).
